

## STEP AWARD DETAILS SPRING 2006

Michael Flaherty	Guillory Hall Computing Center Upgrade	26050
------------------	--	-------

This proposal is to replace the existing twenty computers in the open access laboratory in Guillory Hall with new systems. The laboratory will be joined to the University domain for security and updates.

Jean Kreamer	Step Smart Classroom	153300
--------------	----------------------	--------

This proposal is to continue the deployment of “smart classroom” technology to six additional sites. They will be outfitted with technology compatible with the other 34 classrooms and will include a custom podium with locked storage, document camera, video player, speakers, ceiling mounted projector and screen, control software, computer with internet access.

Mark LeBlanc	Civil Engineering: Color Graphics Peripherals for Computer Lab	1994
--------------	--	------

This proposal is to purchase a replacement color printer and scanner.

Christine Briggs	Making It Authentic: Using Digital Technology to Support Learning	30680
------------------	---	-------

This proposal is for the purchase of twenty digital cameras, bags, batteries, tripods, microphones and a scanner for use in video and critique classroom presentations.

Bette Harris, Kimberly Holmes, Kathryn Riedel	Smarthinking & PLATO Renewal	73420
---	------------------------------	-------

This proposal is to continue the funding for the tutorial software used in the Learning Center of Junior Division. It provides funding for student workers to monitor and provide assistance for the laboratory.

Anita Hazelwood, Michelle Meaux, Carol Venable	Upgrading and Enhancing the Health Information Management Computer Laboratory	16178
--	---	-------

This proposal is to purchase eleven desktop computers, a server, and a laptop to replace an existing laboratory.

John R. Meriwether	Enhancement of the Undergraduate Physics Laboratories with New Technology	198139
--------------------	---	--------

This proposal is for the replacement and enhancement of the physics laboratories installed in 1999. Four laboratories will be equipped with computers (24) and scientific equipment to support the undergraduate program.

David Lynch	STEP Cart Equipment Upgrade	1140
-------------	-----------------------------	------

This proposal is to replace the computer used on the mobile STEP cart.

Daniel Guillory and David Lynch	EDCI Computer Lab Operating Fund	3240
---------------------------------	----------------------------------	------

This proposal is to provide student workers to keep the laboratory open during the summer session.

Doug Williams, Louise Prejean, Yuxin Ma, Mary Jane Ford	Technology-enhanced Pedagogical Laboratory for Pre-Service Teachers	38880
---	---	-------

This proposal is to purchase desktop computers (15), robotic equipment, projection and software for an innovative learning space for majors.

Connie Hunter Lavergne, Toby Dore, Marie Giglio Raggio, & Susan Lyman	Upgrade of Kinesiology Computer Lab in Bourgeois Hall	54917
---	---	-------

This proposal is to replace the existing computers (24), printer, projector, scanner in the open access laboratory in Bourgeois Hall and to provide for student monitors.

Louise Prejean, Doug Williams, Mary Jane Ford, David Lynch	Field Experiences! Teaching and Learning with Technology	11004
--	--	-------

This proposal is to upgrade ram and batteries for 12 existing computers and to provide software for them.

Louise Prejean, Yuxin Ma, Doug Williams, Mary Jane Ford	Robotics: Racing into the Classroom	10197
---	-------------------------------------	-------

This proposal is to provide robotic kits to be used for design learning activities for future classroom use.

Robert Willey	School of Music Recourse Center Upgrade	6055
---------------	---	------

This proposal is for the purchase of two hard drives and computer software.

Chad Aldridge	Proposal for the Equipment Safety-Performance Upgrade Technology Grant	17998
---------------	---	-------

This proposal is for the purchase of two saws, sanding station, compressor and air exchange and exhaust system.

Shawn Konecni	F. G. Mouton STEP Computer Labs	113770
---------------	---------------------------------	--------

This proposal is for continuation of support of the open access laboratories currently located in Moody Hall as they are moved to the renovated F.G.Mouton Hall. This grant provides for the software, maintenance, and student support for these five laboratories.

Sherry Krayesky	Biology Study Room Computer Lab	8744
-----------------	---------------------------------	------

This proposal is for a five computer study laboratory in Billeaud Hall.

Rose Honegger	Intensive English Program Computer Classroom	15542
---------------	--	-------

This proposal is to establish a computer lab with ten computers and a printer for use of students in the Intensive English Program.

Rose Honegger	OIA Equipment Enhancement	2289
---------------	---------------------------	------

This is a proposal for a laptop and speakers to enhance the capabilities of the Office of International Affairs to make presentations.

Neil Vanderpool	Lighting, F/X and Instructional Technology for Performing Arts	77742
-----------------	---	-------

This proposal is to fund the final phase of an upgrade to the theater in Burke Hall.

A. C. Buddy Himes and Mary Ivory Smith	Replacement of Lighting Control Board in Angelle Auditorium	11500
--	---	-------

This proposal is to replace the light control board in the auditorium in Angelle Hall.

Lance Chance	2 <sup>nd</sup> Floor Library STEP Lab	102621
--------------	--	--------

This proposal is to enlarge of the open access computer laboratory in Dupre Library by 30 computer stations.

Cody Bush	Equipment and Enhancements for the Metalworking and Jewelry Studio	7323
-----------	--	------

This proposal is for software, computer and shop equipment for the metalworking studio.

Brian Kelly	Technology Enhancement for the Department of Visual Arts Printmaking Classroom	3050
-------------	--	------

This proposal is for a drawing display screen with software for post production development of digital images.

Jeffrey Lush	Technology Enhancement for the Graphic Design Classroom	14570
--------------	---	-------

This proposal is for the purchase of three computers and a server for the graphic design classroom.

David Lynch and Keith Guillory	COE Materials Center Computer Enhancement	5246
--------------------------------	---	------

This proposal is for the purchase of two PC and two Mac computers for the College of Education Materials Center.

Melissa Nicolas	UL Lafayette Writing Center STEP Computer Lab	3888
-----------------	---	------

This proposal is to fund student workers in the English Writing Center open access laboratory.

Louis Diemert	Replacement LCD Projectors and WiFi Network for Liberal Arts	16000
---------------	--	-------

This proposal is to replace the ceiling mounted projectors in Griffin Hall 106 and Burke Hall Room 114.

Lisa Landry	Wireless Internet Access in Residence Halls	48000
-------------	---	-------

This proposal is to provide wireless access for Randolph, Baker-Huger, Evangeline, Harris and Bonin Halls.

Nola Navarre	Support for Blackboard/Moodle/SGA Voting Administration	2188
--------------	---	------

This proposal is for a computer to support the user service area.

James Etheredge, Timothy Roden and Frank Ducrest	Entertainment Computing Enhancements for Video Game Design and Development Lab	16500
--	--	-------

This proposal is to provide enhanced video and audio cards and software for the existing computers in the laboratory.

Harvey Ozbirn	College of Engineering File Server	4826
---------------	------------------------------------	------

This proposal is to purchase a file server for the College.

Harvey Ozbirn	Rougeou Hall Computer Lab Upgrade	21000
---------------	-----------------------------------	-------

This proposal is to replace 20 computers in the Rougeou Hall open access laboratory.

TOTAL		\$1,117,991
-------	--	-------------
